INDEX TO VOLUME CLI.

AUTHORS.

Adams, J. F. Alleyne. A case of malignant endocarditis, 396.
Arloing and Courmont. Serum diagnosis of tuberculosis. The historical aspect of the subject. The technique for investigating the serum reaction of tuberculosis. Difficulties and sources of error. Results and conclusions, 617.
Arthur, William H. Surgery on old men, 234.

Badger, George S. C., and Cabot, Hugh. The interrelation of medicine and surgery in the treatment of gastric ulcer, 259.
Balch, F. G. Theories as to the cause of the vicious circle, 325.
Bartol, John W. Progress in thoracic disease, 296.
Beebe, Theodore C., Jr. A comparison of anesthetics. Results from chloretone, 376.
Blake, J. B. A ureteral calculus of unusual size, 463; strangulated femoral hernia, relieved by abdominal operation. Raynaud's disease; gangrene of forearm, 265.
Bonney, S. G. Remarks upon the general principles of management of pulmonary tuberculosis, 286.
Bowditch, Vincent Y. Pulmonary tuberculosis and sanatorium treatment, 588.
Bowen, John T. Report on dermatology, 216.
Brackett, E. G., Bradford, E. H., Lovett, R. W., Thorndike, Augustus, and Dane, John. Congenital dislocation of the hip. Report of orthopedic staff of the Boston Children's Hospital based upon observations on 144 cases, 85.
Brackett, E. G., Stone, J. S., and Low, H. C. Aciduria (acetonuria) associated with death after anesthesia, 2.
Bradford, E. H. Arthritis deformans, 534; metatarso-tarsal valgus or humped foot and its relation to boots, 560; treatment of lateral curvature, 479.
Bradford, E. H., Lovett, R. W., Brackett, E. G., Thorndike, Augustus, and Dane, John. Congenital dislocation of the hip. Report of orthopedic staff of the Boston Children's Hospital based upon observations on 144 cases, 85.
Brown, D. J. Malpositions of the uterus: their causes and treatment, 153.
Bullard, W. N., and Sims, F. Robertson. A case of diffuse encephalitis showing the pneumococcus, 647.
Burrage, W. L. Recent progress in gynecology, 381, 409.
Burrell, H. L., Cushing, H. W., and Stone, J. S. Report of cases from the surgical service of the Children's Hospital, Boston, Mass. Second series, 685, 717.

Cabot, Hugh. Anterior *v.* posterior gastro-enterostomy, 325.
Cabot, Hugh, and Badger, George S. C. The interrelation of medicine and surgery in the treatment of gastric ulcer, 259.
Cabot, Richard C. Conclusions from a series of measurements of blood pressure in fevers, before, during and after the administration of strychnia, 346; the ideal of accuracy in clinical work: its importance, its limitations, 557.
Canedy, F. J. A case of suspected homicide proved to be suicide by strychnia, 715.
Cheever, David W. The ideal doctor, 510.
Cheever, David W., Porter, C. B., and Painter, Charles F. Congenital dislocation of the hip. Report of the committee of the Boston Society for Medical Improvement, 92.
Chute, Arthur L. The pain of osteo-arthritis of the spine: its bearing on the diagnosis of urinary disease, 563.
Clark, F. C. Concerning acetanilid, 539.
Codman, E. A. Remarks on the résumé of Dr. F. B. Harrington's service for the year 1902, 74.
Coolidge, A., Jr. The extraction of foreign bodies from the bronchi, 395.
Colton, F. J. Clinical topography of lymph nodes, 229; laryngotomy and removal of one cord for benign tumor of larynx. Operation for "dropped knuckle," 266.
Coues, W. P., and Robey, W. H., Jr. Post-operative erysipelatous dermatitis in an infant of one month; recovery, 719.
Councilman, W. T. The modern conceptions and methods of medical science, 425.
Courmont and Arloing. Serum diagnosis of tuberculosis. The historical aspect of the subject. The technique for investigating the serum reaction of tuberculosis. Difficulties and sources of error. Results and conclusions, 617.
Crothers, T. D. American Medical Society for the Study of Alcohol and Other Narcotics, 227.
Cumston, Charles Greene. Remarks on the jurisprudence of civil malpractice, based principally on the decisions rendered by the French courts, 623, 655.
Cushing, H. W. Acute appendicitis, gangrene, perforation, general peritonitis, recovery. General suppurative peritonitis, toxemia, adrenalin, infusion, recovery. Intestinal obstruction from stricture due to adenocarcinoma, resection of colon, recovery. Phlebitis of the vena cava following typhoid. Supposed tuberculous tumor of the pons cerebri. Senile gangrene of the leg, amputation of thigh, recovery. Raynaud's disease, 266.
Cushing, H. W., Burrell, H. L., and Stone, J. S. Report of cases from the surgical service of the Children's Hospital, Boston, Mass. Second series, 685, 717.
Cutler, E. G. A case of chronic leukemia. A case of subacute articular rheumatism. A case of methemoglobinemia. A case of emphysema. Chronic plethora. An unusual case of scleroderma, 72; gastric ulcer in children, 367, 402.

Dane, John, Bradford, E. H., Lovett, R. W., Brackett, E. G., and Thorndike, Augustus. Congenital dislocation of the hip. Report of orthopedic staff of the Boston Children's Hospital based upon observations on 144 cases, 85.
Darnall, William Edgar. The gynecological aspect of mental overstrain at puberty, and its influence on development, 291.
De Blois, Thomas Amory. Sub-glottic tubercular lesions of the larynx, 321.
Denny, F. P. Isolation methods and precautions in contagious disease, 711.
Donley, John E. A case of uniradicular brachial palsy affecting the fifth cervical nerve, 133; three cases of the association neurosis with remarks on its genesis, 484.
Downing, Bertha C. Mental defectives, 236.
Draper, A. D. A device for greater accuracy of dilution of Thoma-Zeiss pipettes, 684.
Dwight, Thomas. A card catalogue of anatomy, 451.

Edes, Robert T. Mind cures from the standpoint of the general practitioner, 173.
Edson, Carroll E. A meteorological study of the winter of 1903–04, 92.
Elliot, J. W. A case of intussusception. Interstitial colitis, simulating cancer of the rectum, 72.
Emerson, Francis P. Earache, or cases of early involvement of the middle ear, usually neglected, 352.
Ernst, Harold C. Animal experimentation, 29.
Evans, Thomas Horace. On "variant" infections: with report of cases, 400.

Farlow, John W. Two cases of chronic pemphigus of the mouth, 671.
Fitch, R. R. Four cases of laparotomy during typhoid fever: with recovery, 631.
Friedman, C. V. Coma following labor, 464.

Gannett, W. W. Ulceration of primary bronchus; perforation into pulmonary artery, 72.
Gifford, N. H. Experimental decapsulation of the kidneys, 37.
Goldthwait, Joel E. The differential diagnosis and treatment of the so-called rheumatoid diseases, 529.
Goodale, J. L. The ultimate results of cauterization of the lower turbinate, with therapeutic suggestions based upon histological findings, 701.
Gould, Alfred H. An improved method of end to lateral intestinal anastomosis. A new mattress stitch, 707.
Gould, A. H., and Murphy, F. T. Coagulation-time of the blood. A comparison between the Wright and the Brodie-Russell instruments, based upon six hundred observations, 45.
Guiteras, Ramon. Fourth Pan-American Medical Congress, 503.

Hall, William D., and Standish, Myles. Recent progress in ophthalmology, 490.
Hewes, Henry F. Standard records of the leucocytes in normal blood for reference in clinical work, 705.
Higgins, Frank A. Report on obstetrics, 243, 270.
Hill, Hibbert Winslow. Innocent cases reported as diphtheria, 654.
Hill, Hibbert Winslow, and Slack, Francis Henry. Bacterial counts of Boston's milk supply, 708.
Hubbard, Joshua C. Case of rupture of the spleen, 443.

Jackson, Henry. Chronic joint disease, 535; disease of the myocardium, 339.
Jacobs, Henry Barton. Tuberculosis, its nature and prevention, 505.
Johnson, Frank M. The union of the teachings in cystoscopy and microscopy, 132.
Jones, Daniel Fiske. Abscess of the liver following abdominal infections, with a report of four cases, 341; a case of intraperitoneal rupture of the bladder, 515; remarks on exploratory laparotomy in cachectic subjects, 324.
Jones, Daniel Fiske, and Simmons, Channing C. Report of a case of primary carcinoma of the appendix, 566.
Joslin, Elliott P. Progress in gastro-intestinal diseases, 161, 191.
Joslin, Elliott P., Lund, F. B., and Murphy, F. T. Operations upon benign diseases of the stomach at the Boston City Hospital and Massachusetts General Hospital, 1898–1903 inclusive, 113.

Knapp, Philip Coombs. Recent progress in neurology, 99.
Knight, Frederick I. What shall we do with patients having pulmonary tuberculosis? 257.

Leland, G. A. Leucoplakia of tongue. Cicatricial stricture of pharyngeal orifice, relieved by plastic operation, 295.
Lord, Frederick T. Flies and tuberculosis, 651.
Lovett, R. W., Bradford E. H., Brackett, E. G., Thorndike, Augustus, and Dane, John. Congenital dislocation of the hip. Report of orthopedic staff of the Boston Children's Hospital based upon observations on 144 cases, 85.
Low, H. C., Brackett, E. G., and Stone, J. S. Aciduria (acetonuria) associated with death after anesthesia, 2.
Lund, F. B. Fractures of the radius in starting automobiles, 481.
Lund, F. B., Joslin, E. P., and Murphy, F. T. Operations upon benign diseases of the stomach at the Boston City Hospital and Massachusetts General Hospital, 1898–1903 inclusive, 113.

Manley, Thomas H. The mamma, its physiological purposes, 461.

Miller, Lester C. The decrease in the death-rate of consumption, 678.
Millet, Charles S. The practical application of hydrotherapeutic measures, 205.
Miner, W. W. Pulmonary congestion as a cause of sudden death, 682.
Morrill, F. Gordon. The Assouan cure, 440.
Morse, John Lovett. Rheumatoid disease in children, 537; report on pediatrics, 687.
Morse, John Lovett, and Rotch, Thomas Morgan. Report on pediatrics, 658.
Mumford, James G. Four cases of Finney's operation on stomach, 73.
Munro, John C. Operations on the stomach, with report of cases, 145, 183, 210, 239.
Murphy, Fred T. A study of amputations of the lower extremity, 33.
Murphy, Fred T., and Gould, A. H. Coagulation-time of the blood. A comparison between the Wright and the Brodie-Russell instruments, based upon six hundred observations, 45.
Murphy, Fred T., Lund, F. B., and Joslin, E. P. Operations upon benign diseases of the stomach at the Boston City Hospital and Massachusetts General Hospital, 1898–1903 inclusive, 113.
Musgrave, Percy. Examination of pleural fluids with reference to their etiology and diagnostic value, 317, 347, 377, 406.

Ogden, J. Bergen. Functional albuminuria, with a report of a case, 40; report of physiological chemistry, 542.
O'Neil, Richard Frothingham. Hematuria due to Bilharzia hematobia, with the report of a case, 453.

Page, Charles W. Mechanical restraint and seclusion of insane persons, 590.
Painter, Charles F. Types of rheumatoid disease, 538.
Painter, Charles F., Cheever, David W., and Porter, C. B. Congenital dislocation of the hip. Report of the committee of the Boston Society for Medical Improvement, 92.
Palmer, Lewis M. The tendencies of the practice of medicine as a profession and an art, 309.
Palmer, Sarah Ellen. Adeno-carcinoma of intestines involving the bladder, 47; letter from Munich, 725.
Pease, E. A. Gastro-enterostomy. After-treatment, 326.
Perkins, Jay. The diagnosis of incipient pulmonary tuberculosis, 627.
Perry, H. B. Implantations of silver filigree for cure of large ventral hernia. Report of two cases, 97.
Porter, C. A. Technique of gastro-enterostomy. Special preparation of patient for operations on the stomach, 323.
Porter, C. B., Cheever, David W., and Painter, Charles F. Congenital dislocation of the hip. Report of the committee of the Boston Society for Medical Improvement, 92.
Post, Abner. Tabes dorsalis, with surgical complications, 266.
Powers, George H., Jr. Plastic operations for resection of the nasal septum and excision of septal spurs, 513.
Pratt, Joseph H. The present status of hydrotherapy and other forms of physical therapeutics, 201.
Putnam, James J. A consideration of mental therapeutics as employed by special students of the subject, 179; the value of the physiological principle in the study of neurology, 641.

Reynolds, Edward. President's address before the American Gynecological Society, 1.
Richardson, Maurice H. On certain unavoidable calamities following surgical operations, 583.
Robey, W. H., Jr., and Coues, W. P. Post-operative erysipelatous dermatitis in an infant of one month; recovery, 719.
Rotch, Thomas Morgan, and Morse, John Lovett. Report on pediatrics, 658; report on pediatrics, 687.

Sabine, Wallace C. The physical relationship of Finsen light, Röntgen rays and radio-activity, 159.
Sajous, C. E. de M. Internal secretions, 393.
Scudder, Charles L. A gastro-enterostomy clamp, 442; spindle-cell sarcoma of foot. Amputation. Recovery. Lung metastases. Death. Autopsy, 264; the technique of resection of cecum, 511.
Scudder, Charles L. Chronic gastric ulcers. Hour-glass deformity of the stomach. Report of a case successfully operated, 676.
Sears, George G. A case of Addison's disease. A case of cancer confined to the papilla of the common bile duct, 295.
Simmons, Channing C., and Jones, Daniel Fiske. Report of a case of primary carcinoma of the appendix, 566.
Sims, F. Robertson, and Bullard, W. N. A case of diffuse encephalitis, showing the pneumococcus, 647.
Slack, Francis Henry, and Hill, Hibbert Winslow. Bacterial counts of Boston's milk supply, 708.
Smith, D. D. Pericemental abscess, 372.
Smith, Howard H., and White, Franklin W. Heart complications in diphtheria. A clinical study of 946 cases, 433.
Smith, Theobald. Leprosy, 675.
Standish, Myles, and Hall, William D. Recent progress in ophthalmology, 490.
Stedman, Henry R. A case of moral insanity with repeated homicides and incendiarism and late development of delusions, 57; report on mental diseases, 567, 601.
Stimson, F. J. The Assouan cure. From a layman's point of view, 423.
Stone, J. S. Subperiosteal fractures of the humerus in children, 157.
Stone, J. S., Brackett, E. G., and Low, H. C. Aciduria (acetonuria) associated with death after anesthesia, 2.
Stone, J. S., Burrell, H. L., and Cushing, H. W. Report of cases from the surgical service of the Children's Hospital, Boston, Mass. Second series, 685, 717.

Tallant, Alice Weld. Some observations on the occurrence of Broadbent's sign, 457.
Taylor, E. W. Pott's disease. Treatment at a late stage. Remarks on the pathological anatomy, 595; sacral spina bifida, with reference to the skin representation of sacral nerve roots, 208.
Taylor, J. Madison. Dr. Sajous on "internal secretions," 365.
Thorndike, Augustus, Bradford, E. H., Lovett, R. W., Brackett, E. G., and Dane, John. Congenital dislocation of the hip. Report of orthopedic staff of the Boston Children's Hospital based upon observations on 144 cases, 85.
Towle, Harvey P. Clinical report from the ward for skin diseases at the Massachusetts General Hospital, 629.
Townsend, C. W. Vulvo-vaginitis in children. A method for obtaining sputa for bacteriological examination in infants and young children. Mouth temperature and rectal temperature, 75.

Vickery, H. F. Chronic joint disease at the Massachusetts General Hospital, 536.

Watson, Francis S. Clinical lecture on urethral stricture delivered at the Boston City Hospital to fourth year Harvard medical students, 611; obstructive renal retention and anuria, and its treatment, 281; penetrating bullet wounds of right lung, liver and stomach, superficial wound of scalp. Laparotomy. Purse-string suture of stomach wound, and closure of wound of liver by interrupted sutures. Recovery, 462.
Webber, S. G. Cases illustrative of syphilis of the nervous system, 486.
White, Franklin W., and Smith, Howard H. Heart complications in diphtheria. A clinical study of 946 cases, 433.
Whitney, Charles M. The etiology and modern methods of treatment of chronic urethritis, 66.
Withington, Charles F. A case of malignant endocarditis with recovery, 99.

SUBJECTS.

Addresses. The ideal of accuracy in clinical work: its importance, its limitations, Cabot, Richard C., 557; the modern conceptions and methods of medical science, Councilman, W. T., 425; animal experimentation, Ernst, Harold C., 29; tuberculosis, its nature and prevention, Jacobs, Henry Barton, 505; the tendencies of the practice of medicine as a profession and an art, Palmer, Lewis M., 309; the value of the physiological principle in the study of neurology, Putnam, James Jackson, 641; president's address before the American gynecological society, Reynolds, Edward, 1.
Anesthetics. A comparison of anesthetics. Results from chloretone, Beebe, Theodore C., Jr., 376; aciduria (acetonuria) associated with death after anesthesia, Brackett, E. G., Stone, J. S., and Low, H. C., 2.

Bilharzia Hematobia. Hematuria due to Bilharzia hematobia, with the report of a case, O'Neil, Richard Frothingham, 453.
Blood. Conclusions from a series of measurements of blood pressure in fevers, before, during and after the administration of strychnia, Cabot, Richard C., 346; coagulation-time of the blood. A comparison between the Wright and Brodie-Russell instruments, based upon six hundred observations, Gould, A. H., and Murphy, F. T., 45; standard records of the leucocytes in normal blood for reference in clinical work, Hewes, Henry F., 705.
Blood Pressure. Conclusions from a series of measurements of blood pressure in fevers, before, during and after the administration of strychnia, Cabot, Richard C., 346.
Books Reviewed. Allen, Charles Warrenne, radiotherapy, phototherapy and high-frequency currents, 498; Bailey, Frederick R., a textbook of histology, 549; Bartley, Elias H., manual of physiological and clinical chemistry, 575; Bastian, H. Charlton, studies in heteromorphosis, 50; Beebe, S. P., and Buxton, B. H., outlines of physiological chemistry, 720; Bickham, Warren Stone, a textbook of operative surgery, covering the surgical anatomy and operative technique involved in the operations of general surgery, 693; Bocciardo, A. D., elettricità medica, 447; Böhm, A. A., and von Davidoff, M., a textbook of histology, including microscopic technic, 549; Boston, L. Napoleon, a textbook of clinical diagnosis. By laboratory methods for use of students, practitioners and laboratory workers, 605; Burrell, Herbert L., case teaching in surgery, 663; Busch, Frederick C., Kirkes' handbook of physiology, 575; Cabot, Richard C., a guide to the clinical examination of the blood for diagnostic purposes, 222; Casper, Leopold, and Richter, Paul Frederick, functional diagnosis of kidney disease with especial reference to renal surgery, 549; Cattell, Henry W., post-mortem pathology. A manual of post-mortem examinations and the interpretations to be drawn therefrom. A practical treatise for students and practitioners, 360; Cohen, Solomon Solis, a system of physiologic therapeutics. A practical exposition of the methods, other than drug-giving, useful for the prevention of disease and in the treatment of the sick, 388; Coolidge, Emelyn Lincoln, the mother's manual. A month by month guide to young mothers, 359; Cornet, G., American edition of Nothnagel's practice. Tuberculosis and acute general miliary tuberculosis, 472; Dana, Charles L., textbook of nervous diseases and psychiatry, 663; Davis, Edward P., obstetrics and gynecologic nursing, 274; Davison, Alvin, mammalian anatomy, with special reference to the cat, 22; Dudley, E. C., a treatise on the principles and practice of gynecology, 471; Dudley, Emilius C., and Healy, William, gynecology. Vol. VI of the practical medicine series of year books, 106; Dunham, Edward K., a textbook on normal histology for the use of students and practitioners of medicine, 549; Dwight, Edwin Welles, the medical epitome series. Toxicology, 550; Fenwick, E. Hurry, the value of ureteric meatoscopy in obscure diseases of the kidney, 521; Flick, Lawrence F., consumption a curable and preventable disease, 301; Gerrard, Percy Netterville, beriberi, its symptoms and symptomatic treatment, 663; Gerrard, Percy Netterville, beri-beri, its symptoms and symptomatic treatment: being extracts from "an essay on beri-beri," 663; Gowers, William R., lectures on diseases of the nervous system, 106; Halliburton, W. D., Kirkes' handbook of physiology, 575; Halliburton, W. D., the essentials of clinical physiology, 663; Hare, Hobart Amory, Hare's practical therapeutics; a textbook of practical therapeutics; with especial reference to the application of remedial measures to disease and their employment upon a rational

basis, 633; Head, Gustavus P., the practical medicine series of year books. Vol. II, general surgery, 359; Holland, J. W., the urine and clinical chemistry of the gastric contents, the common poisons and milk, 662; Illoway, H., the summer diarrheas of infants. Their etiology, pathology and treatment, 360; international medical annual: a year book of treatment and practitioners' index, 633; Jacobi, portfolio of dermochromes, 472; Janeway, Theodore C., the clinical study of blood pressure. A guide to the use of the sphygmomanometer in medical, surgical and obstetrical practice, 720; Kraepelin, Emil, lectures on clinical psychiatry, 574; Kyle, D. Braden, a textbook of the diseases of the nose and throat, 550; Landois, L., textbook of human physiology, 693; Leach, Albert E., food inspection and analysis, 470; Leftwich, Ralph Winnington, an index of symptoms as a clew to diagnosis, 498; Lenhartz, Hermann, manual of clinical microscopy and chemistry, prepared for the use of students and practitioners of medicine, 358; Luys, Georges, la séparation de l'urine des deux reins, 301; McFarland, Joseph, a textbook upon pathogenic bacteria, 416; Medical News visiting list for 1905, 605; Medical Record visiting list or physician's diary for 1905, 605; Mosso, A., fatigue. Translated by Margaret Drummond and W. B. Drummond, 250; Musser, John H., a practical treatise on medical diagnosis for students and physicians, 138; Muzio, Carlo, le malattie dei paesi caldi, loro profilassi ed igeine; con un' appendice, la vita nel brasile, 250; Nancrede, Charles B., Saunders' question-compends, No. 3. Essentials of anatomy; including the anatomy of the viscera, 605; Nothnagel, Hermann, American edition of Nothnagel's practice. Diseases of the intestines and peritoneum, 302; Oppenheim, H., diseases of the nervous system, 633; Olsen, J. C., a textbook of quantitative chemical analysis, 662; Ott, Isaac, a textbook of physiology, 575; Pattee, Alida Frances, practical dietetics with reference to diet in disease, 662; Prescott, Samuel Cate, and Winslow, Charles Edward Amory, the elements of water bacteriology with special reference to sanitary water analysis, 333; Rabagliati, A., air, food and exercise; an essay on the predisposing causes of disease, 194; Robson, A. W. Mayo, disease of the gall-bladder and bile-ducts, including gall-stones, 258; Rolleston, H. D., clinical lectures and essays on abdominal and other subjects, 575; Sachse, Helen V., how to cook for the sick and convalescent. Arranged for the physician, trained nurse and home use, 662; Sajous, Charles E. de M., the internal secretions and the principles of medicine. Vol. I, 302; Simon, Charles E., a textbook of physiological chemistry, 447; Simon, Charles E., Simon's clinical diagnosis. A manual of diagnosis by microscopic and chemical methods. For students and practitioners, 359; Spratling, William P., epilepsy and its treatment, 470; Stengel, Alfred, a textbook of pathology, 387; Sternberg, George M., infection and immunity with special reference to the prevention of infectious diseases, 359; Swaffield, Walter H., the closure of laparotomy wounds as practised in Germany and Austria. Including detailed methods and views communicated by over fifty leading surgeons, 359; Taylor, Robert W., a practical treatise on genito-urinary and venereal diseases and syphilis, 471; Thomson, William Hanna, Graves' disease, with and without exophthalmic goitre, 79; Tubby, A. H., and Jones, Robert, surgery of paralysis, 250; Turner, Dawson, a manual of practical medical electricity, 472; Tyson, James, a treatise on Bright's disease and diabetes, with especial reference to pathology and therapeutics, 605; Tyson, James, the practice of medicine. A textbook for practitioners and students with special reference to diagnosis and treatment, 300; von Behring, E., the suppression of tuberculosis, together with observations concerning phthisiogenesis in man and animals, and suggestions concerning the hygiene of cow-stables and the production of milk for infant feeding, with special reference to tuberculosis, 521; Von Bergmann, E., a system of practical surgery, 520; Von Noorden, Carl, clinical treatises on the pathology and therapy of disorders of metabolism and nutrition, 521; Wackenhagen, George, aseptic and antiseptic preparation and treatment of emergencies after abdominal surgical operations, 250; Wassermann, A., immune sera. Haemolysins, cytotoxins and precipitins, 388; Wilcox, Reynold Webb, a manual of fever nursing, 662; Wolff, Lawrence, essentials of chemistry, organic and inorganic, 550; Yeo, I. Burney, the therapeutics of mineral springs and climates, 416; Ziegler, Ernst, general pathology, or the science of the causes, nature and course of the processes of disease, 398.

Calculus. A ureteral calculus of unusual size, Blake, J. B., 463.

Carcinoma. Intestinal obstruction from stricture due to adeno-carcinoma, resection of colon, recovery, Cushing, H. W., 266; interstitial colitis, simulating cancer of the rectum, Elliot, J. W., 72; report of a case of primary carcinoma of the appendix, Jones, Daniel Fiske, and Simmons, Channing C., 566; adeno-carcinoma of intestines involving the bladder, Palmer, Sarah Ellen, 47; a case of cancer confined to the papilla of the common bile duct, Sears, George G., 295.

Clinical Meetings. Boston City Hospital, 265, 295; Massachusetts General Hospital, 72.

Correspondence. Harvard Medical School from a layman's standpoint, 111; medical exhibits at the World's Fair, 198; American medical society for the study of alcohol and other narcotics, by Crothers, T. D., 227; a disclaimer, by Alexander, Clara J., 337; Dr. Sajous on "Internal Secretions," by Taylor, J. Madison, 365; internal secretions, by Sajous, C. E. de M., 393; the Assouan cure. From a layman's point of view, by Stimson, F. J., 423; a card catalogue of anatomy, by Dwight, Thomas, 451; fourth Pan-American medical congress, by Guiteras, Ramon, 503; licenses to practice medicine in New Hampshire, 639; letter from Munich, by Palmer, Sarah Ellen, M.D., 725.

Deaths. Abbot, Samuel Leonard, 28; Abbott, Samuel Warren, 478; Allison, Henry E., 582; Babbitt, Henry Smith, 670; Bemis, Merrick, 394; Birtwell, Charles Ebenezer, 726; Brosnan, John T., 308; Buffet, Edward P., 308; Burr, Rollin H., 28; Carroll, William Edward, 640; Chabert, Romeo F., 228; Chambers, Jacob, 338; Conant, George Seymour, 366; Cushman, William F., 640; Draper, Joseph Rutter, 504; Fitzgerald, David J., 112; Flowers, William Caldwell, 478; Gilfillan, William, 726; Goodrich, Harriet Rawson, 256; Gould, Joshua Bayley, 726; Greenough, Francis Boott, 452; Healy, James Joseph, 556; Horwitz, Phineas J., 394; Johnson, Otis Henry, 84; Law, Charles K., 700; McLean, Henry C., 726; Milbank, Robert, 228; Morrill, S. C., 424; Newton, Adin Hubbard, 56; North, Nelson L., 610; Pitkin, Leonard F., 640; Price, Mordecai, 528; Purcell, John, 394; Seymour, William Wotkyns, 504; Simons, Elbridge Gerry, 280; Steele, John McClary, 256; Warden, Albert W., 200; Webber, Alonzo Carter, 256; Wenner, George V., 112; Woodward, Charles S., 28.

Dermatology. Report on dermatology, Bowen, John T., 216; clinical report from the ward for skin diseases at the Massachusetts General Hospital, Towle, Harvey P., 629.

Editorials.
